

As your business grows and changes, we understand your challenges and can offer many opportunities.

Your Challenges:

How can I get a reliable, well-trained workforce?

Where can I find the space needed to fulfill my current and future production requirements?

How can I manage variable production rates such as peak buying periods or low demand times?

Your Opportunities:

Safe & Secure Environment

All facilities offer a safe and secure environment that is accessible to meet your needs. Locations are available throughout Maryland.

Production Space

Bring your business needs to our labor in an industrial complex that is built to produce. Over 20,000 square feet are available at some locations for your exclusive use.

Flexibility

Adjust your temp hires to meet your business cycles. Ramp up or gear down your production as necessary to meet demand.

Please contact MCE to find out how Maryland Inmates can help Maryland Business!

There are many reasons to consider...

The PIECP Program

Makes smart business and safe communities...

“A Resource For the Private Sector” which allows MCE to enter into partnerships and be a subcontractor to private industry by producing goods and/or services using inmate labor. This workforce opportunity for the private sector includes a stable and motivated labor pool, reduced overhead, production availability, an alternative to “off-shore” operations, and a label affixed to the product which states “Made in the U.S.A.”

Maryland Correctional Enterprises’ mission is to provide structured employment and training activities for offenders in order to improve employability upon release, to enhance safety and security, to reduce prison idleness, to produce quality, saleable goods and services, and to be a financially self-supporting State agency.

PIECP (Prison Industry Enhancement Certification Program) was created by Congress in 1979 to encourage states and units of local government to establish employment opportunities for inmates that approximate private-sector work opportunities. The program is designed to place inmates in a realistic work environment, pay them the prevailing local wage for similar work, and enable them to acquire marketable skills to increase their potential for successful rehabilitation and meaningful employment upon release. Deductions are taken for taxes, room and board, contributions to the victim’s compensation program, and family support.

What are the benefits?

- To create a “level playing field” for stakeholders; whereby private companies can have access to a highly motivated, dependable inmate workforce to which they can possibly outsource production processes.
- To generate products and services that enable inmates to make a contribution to society, help offset the cost of their incarceration, compensate crime victims, and provide family support.
- To provide a means of reducing prison idleness, increasing inmate job skills, and improving the prospects for a successful inmate transition to the community upon release.

Why should you invest?

- Reliable production with quick turnaround to boost profits at a low cost.
- No requirement for offender employee annual, sick, or family leave.
- No cost for employee’s pension plans, life or health insurance premiums.
- Reduced operation and security cost due to assigned security personnel in a safe and secure location at minimal cost.
- The prospect of hiring the offender employee upon release on a temp status basis through the tax deductible Federal Bonding program.
